Subject: RE: Update on the status of Oregon's 2012 Integrated Report

We are still reviewing the list and waiting for a piece of data from UW/NOAA. I wouldn't mention that part. I would just say we are still in the process of reviewing data and hope to be out for public comment by the end of the summer. I don't want to say anything in the way of specifics prior to that, because then we have to deal with people calling/complaining to either us or ODEQ, and that's best dealt with during the comment period. Not too helpful, I'm sure, but that's all I've got.

Subject: Update on the status of Oregon's 2012 Integrated Report

I have been asked to give an update on the status of Oregon's 2012 Integrated Report at the June 29 Mid-Coast TWG meeting on June 29th. There is specific interest in the DO listings. Can either of you provide me information that I could share with the TWG committee?
